Bachelor's Degree in Informatics Engineering

Distributed Systems

Self-assessment test on the global network for the LHC

Assign a score to each question depending on whether you know how to answer it (2), you are not sure (1), or you don't know (0).

	Score (0/1/2)
Discuss some of the advantages of geographic dispersion of resources.	
Try to relate the hierarchical design of the WLCG with its capacity for growth.	
What does cloud computing contribute over grid computing?	
"[…] the WLCG […] provides the necessary mechanisms [to access computing resources] in a transparent manner […]". What mechanisms does it refer to?	
Why is the WLCG a computer model applicable to many other areas?	
TOTAL
